

Lily walked in the street. What happened in the end? Look at the pictures and finish the story.

### A Special Day

Lily walked in the street and looked in the toy shop window. She saw a doll. It was fifty dollars. When she took out her pretty purse, she found out that she had no money. She was disappointed. She walked away straight home.

Suddenly, she found a fifty-dollar note on the ground! She thought, 'I have enough money to buy my favourite doll! Great! I am lucky! Then, she decided to walk back to the toy shop and buy the doll.

When she was walking back to the toy shop, she saw a boy who was so worried. He said, 'I dropped my money here! Where did it go?' His mother helped him find it too but they couldn't find it. The boy was miserable.

Lily thought, 'Should I give back the fifty-dollar note to him? I need to be honest! But I want to buy that doll...It is beautiful and cute! No! I need to be honest!' At last, Lily gave back the fifty-dollars to the boy. The boy said, 'Thank you!' They all felt so happy.
